

Low Cost Packing
High Speed
Reliable

■ Automatic Ice Packing Machine

- Come with full functions of delivery, weighing, packing, filling, sealing, printing, counting etc.
- High speed with stable sealing up to 25 bags/min.
- Equipment investment cost can be recovered in less than one year.
- Packing process is sanitary to meet the food sanitation standard.

Packing Capacity : **2-15 kg/Bag**

Automatic Packing Ice Machine

CBFI automatic ice packing machine give fast packing, saving time and manpower,mostly used in packing tube ice and cube ice.It is definitely the first choice for medium and large edible ice factory.

Technical Data

| | |
|----------------|---------------------------------------|
| Model | API 100 |
| Capacity | 10~25 bags/min |
| Ice weight | 2~15kg/bag |
| Film Type | HDPE/LDPE/LLDPE |
| Film Thickness | ≥0.045mm |
| Bag Sizes | Length: 400~850mm Width: 300~450mm |
| Air Pressure | ≥0.6Mpa |
| Power | 3P/380V/50Hz |
| Weight | 800kg |
| Size(L×W×H) | 3750×1190×2270 mm |

Note: Packing speed are relative with the weight of bagged ice.
Factory height ≥ 3.25m.

Advanced water-proof sealing technology to ensure the ice bags are solid.

With system controller, the machine can be easily adjusted paramaters as per

Easily changeable of weight without using scale.

Poly film is easy to replace.

High speed packing

Remote control with Internet of Things technology (Optional)
